---

**Note:** If Reservist please provide a points history

The Military does not have a pre-approval process where the language of the military order can be reviewed prior to entry by the court, or signature of the judge, therefore a possibility exist that the Defense Finance & Accounting Service (DFAS) will require changes.

Entry of the order, or obtaining the judge's signature, is the responsibility of the attorney representing either spouse, as we are not parties to the action Voit Econometrics does not enter orders into the court.
